Part No. 2675

Wiremold® Power Strip: 20" Long x 15'  
Cord, 20 Amp Straight Blade

The Wiremold® Power Strip is ideal for applications that require power to many devices and is commonly used in laboratory and factory environments, offices, rack-mount applications, workbenches, and industrial solutions. It is housed in a durable, mountable encasement that allows for both vertical and horizontal installation. There are options available with 15 or 20-amps as well as a selection with a built-in circuit breaker that prevents dangerous overloads. The mounting clips to mount to a T-slot profile are included and there is no machining required.
