[DESCRIPTION](#)[TECHNICAL DETAILS](#)

## DESCRIPTION

This is a really nice power supply. It's a switching DC supply so its small and light and efficient. It is thin so it fits in power strips without blocking other outlets. The output is regulated so you'll get a steady 12V up to 1000mA (1 Amp) of current draw. 5.5mm/2.1mm barrel jack, positive tip. This supply is designed to work anywhere in the world, 100V-240V AC wall power, you'll just need a low cost plug adapter.

**New! This adapter is now CE / UL listed**

Great for Boarduinos, clock kits, and Arduinos, anything that has a 5V regulator! Also works great with 12V DC devices such as many solenoids, switches, our coin acceptors, analog-type RGB, cool white and warm white LED light strips.

## TECHNICAL DETAILS

Dimensions (wall wart):

- Wall Wart Dimensions: 71mm x 48mm x 31mm / 2.8" x 1.9" x 1.2"
- Cable Length : 178cm / 70"
- Cable Diameter : 3.5mm / 0.13"
- Weight: 89g

**Revision History:**

- As of Friday, May 8th, 2015 we are selling a revised model!
