

**SINGLE
1.5 WATT**

BRS SERIES

key features

- industry standard DIP package
- industry standard pin out
- 85C case operation
- short circuit protection
- 5V Input
- input LC filter
- regulated outputs
- 500V isolation

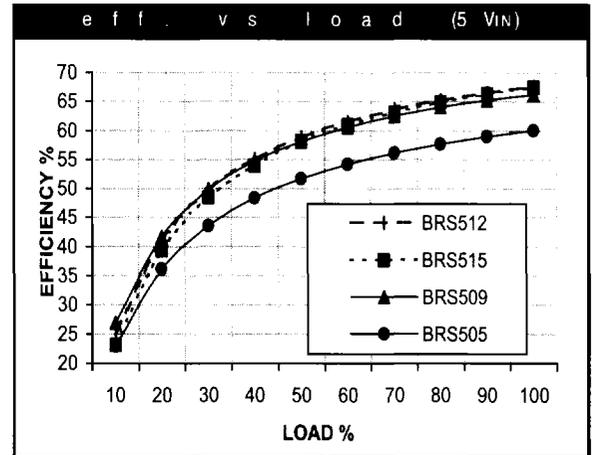

The BRS series converters offer excellent regulation and isolation in the industry standard DIP package. The 5 Volt input BRS is perfect for industrial and EDP applications. The BRS features short circuit protection and has 500VDC of isolation. Several output voltages are available, please see the BRD series for dual output applications.

technical specifications

input	
voltage range	4.65 - 5.50 VDC
5VDC nominal	
reflected ripple	20% I_{IN} max.
reverse input current	100% I_{IN} max.
no load input power	0.80W

output	
setpoint accuracy	±4%
line regulation V_{IN} min. - V_{IN} max., I_{OUT} rated	±0.5% V_o
load regulation I_{OUT} min. - I_{OUT} max., V_{IN} nom.	±0.5% V_o
minimum output current	0 %
short circuit protection ¹	continuous

general	
switching frequency	200 KHz
isolation	
input - output	500 VDC
isolation resistance - input to output	10 ⁹ Ohms
case temperature	
standard operating range	-25 to +85°C
industrial range (add -I to p/n)	-40 to +85°C
storage range	-40 to +125°C
humidity max, non-condensing	95%
vibration, 3 axes, 5 min each	5 g, 10-55 Hz
safety	consult factory
weight (approx.)	0.6 oz.

notes

¹ Continuous short circuit protection is provided. Long term continuous operation in this mode is not recommended. Converter will auto-restart once fault has been removed

Specifications typically at 25°C, normal line, and full load - unless otherwise stated.

Specifications subject to change without notice.
