

Proximity Magnetic Sensors Level Magnetic Sensors ILMM Series

CARLO GAVAZZI

- Cylindrical AISI 304 or 316 stainless steel housing
- NO or NC output functions
- Reversible output function by float overturning
- XLPE cable output connection
- High temperature versions available
- Suited for use in corrosive environments

Product Description

The stainless steel models can be used also in corrosive environments.

The micro level switches find their ideal application in food, chemical and oil industries.

The ILMM5S1 model is also available in S2 version with 1/8" gas thread.
