THE SMALL FORM FACTOR POWER SUPPLY FOR YOUR BIG IDEAS.

SF Series power supplies bring legendary Corsair performance and reliability to the SFX small form factor standard. They have the features found in full-size high performance power supplies, with certification for 80 PLUS Gold efficiency, superior voltage regulation, Zero RPM mode for virtually silent operation, and 105°C All Japanese capacitors for better reliability.

80 PLUS GOLD CERTIFIED

If you're building a small system that's going to see a lot of use, low heat generation and high efficiency are essential. SF Series power supplies operate at greater than 90% efficiency at 50% load on 115V circuits.

SFX FORM FACTOR

SF Series is designed to the SFX power supply specification for high performance small form factor systems.

FULLY MODULAR CABLE SET

The detachable DC cables make builds and upgrades easy, with clean, great-looking results. Use only the power cables you need lets you save valuable internal space and can improve system airflow.

CAPACITORS Premium internal components ensure solid power

100% ALL JAPANESE 105°C

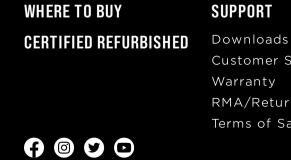

delivery and long term reliability.

ZERO RPM FAN MODE Building a silent PC? SF Series power supplies are so

efficient that the fan doesn't need to spin at low to medium loads.
