Product Overview

Plug your cordless phone or answering machine into the CyberPower PhoneSaver™ CPS180PHV battery backup model and receive more than four hours of emergency backup power. It has built in surge protection to prolong the life of your connected electronics, and included adapters allow the model to work with 6V, 7.5V, 9V or 12V cordless phone. The built-in transformer plug replaces your phone's standard, bulky wall adapter. When a power failure occurs, the emergency utility light activates making sure you're not left in the dark. The PhoneSaver™ comes with three-year warranty and a Connected Equipment Guarantee.

Lightning/Surge Protection

360 Joule protection from phone line surges and spikes a leading cause of phone degradation and failure.

Scalability

Works with all 6V, 7.5V, 9V & 12V cordless phones and answering machines.

Emergency Light

Emergency utility light activates automatically during a power outage.

On-Board Transformer

Built-in transformer replaces a bulky standard adapter.

Three-Year Warranty

CyberPower will repair or replace a defective UPS system (including batteries) within three years of the purchase date. See warranty for details.

Connected Equipment Guarantee

CyberPower will repair or replace properly connected equipment if it is damaged by a power surge.
