Glossary And Resource

Highlights

- Pure sine wave output on battery
- Cold-start capable
- Temperature-compensated battery charging
- Green mode
- High online efficiency
- Intuitive LCD interface
- Predictive replace battery date
- SmartSlot
- Energy meter

Overview

APC Smart-UPS protects your data by supplying reliable, network-grade power in either traditional Tower or Rack-optimized form factors for space constrained business critical applications. Award winning APC Smart-UPS is the perfect UPS for protecting business critical file servers (Intel or UNIX based), minicomputers, network switches and hubs, Point of Sale, retail/bank back office and ATMs. Rack Mount versions are the choice for rack optimized servers, server appliances, blade servers, other blade devices and rack-mounted network switches and hubs.
