The Dell Smart-UPS provides high-density, double-conversion, online power protection for servers, voice/data networks, medical labs, and light industrial applications. The Dell Smart-UPS is capable of supporting high loads. The UPS features unity output power factor, enabling it to support power-hungry blade servers or heavily loaded equipment racks. When business-critical systems require long runtime, Dell Smart-UPS can be configured with multiple battery packs to meet aggressive runtime demands.

- Graphical LCD display with multicolor backlight
- Intelligent battery management
- Built-in energy meter
- Operate without battery
