In addition to legendary reliability and manageability, Smart-UPS have extremely high efficiency at low, medium and high load levels making them ideal for today's multi-core or virtualized servers that have varying load consumption. Rack mounted Smart-UPS are ideal for powering Blade or density optimized servers in a distributed power protection environment as the primary or redundant protection. Smart-UPS models have long been considered the benchmark for all network and server UPS's. Smart-UPS feature a 16-segment LED display, extended range automatic voltage regulation (AVR), and pure sine wave output on battery.

- Boost and trim automatic voltage regulation (AVR)
- Intelligent battery management
- Power conditioning
- Temperature-compensated battery charging
- Automatic restart of loads after UPS shutdown
- Automatic self-test
- Cold-start capable
- Disconnected battery notification
