

1kVA 600W Line-Interactive UPS with 8 C13 Outlets - AVR, 230V, C14 Inlet, LCD, USB, Tower

MODEL NUMBER: OMNIVSX1000

Line-interactive UPS provides basic battery backup with automatic voltage regulation for your office computer or home theater setup.

Features

1000VA/600W/230V Battery Backup for PCs, Home Theater or Digital Signage This 230V UPS with AVR protection provides reliable battery backup and AC power protection against blackouts, brownouts, overvoltages, surges and line noise that can damage valuable electronics or destroy data. The eight-outlet 230V battery backup is ideal protection for your home office, media center or commerce components, including computers, routers, printers, HDTVs, Blu-ray players, game consoles, ATMs, security systems and digital signage equipment.

Allows Time to Back Up Critical Files During a BlackoutBackup support allows you to work through short power failures, and gives you enough time to safely save files and shut down your system in case of a prolonged blackout. Backup time varies according to load, but the line-interactive UPS system should keep an energy-efficient desktop computer with small LCD monitor powered as long as 50 minutes. During normal operation, incoming utility power keeps the replaceable internal battery fully charged, so backup power will always be available.

Connects Your Equipment to 8 Protected C13 Outlets All eight C13 outlets provide both battery backup and surge protection for your computer, monitor and other crucial components. Two 1.5-meter C13-to-C14 power cables are included for connecting equipment. A high >95% line mode efficiency rating reduces BTU emissions, energy consumption and, ultimately, your energy costs.

Automatic Voltage Regulation (AVR) Corrects Low- and High-Voltage Conditions AVR protects your equipment from incremental hardware damage, data loss and performance problems caused by brownouts and overvoltages. The OMNIVSX1000 can correct brownouts as low as 170V and overvoltages as high as 280V back to nominal 230V power continuously, all while keeping the battery fully charged and ready to take over in case of power failure.

312 Joules Fight Back Against Unexpected Power SurgesA 312-joule surge suppression rating protects connected components from the harmful effects of power surges.

Combats Electromagnetic Interference That Can Harm Equipment Various electromagnetic and radio sources found in virtually every home and business can cause disruptive interference on the AC line. Known as EMI (electromagnetic interference) and RFI (radio frequency interference), this line noise is a common cause of performance problems and can lead to incremental hardware damage, data corruption and audio/video transmission problems. The OMNIVSX1000 incorporates technology that filters out disruptive line noise so that it won't affect your equipment.

Highlights

- Protects equipment against blackouts, brownouts, overvoltages, surges and line noise
- AVR battery backup allows time to save files and safely shut down during blackouts
- 8 C13 outlets provide power to PC, home theater or digital signage equipment
- Easy-to-read LCD touchscreen provides valuable voltage, load and battery data
- High >95% efficiency with low BTU ratings saves power and lowers your energy costs

Applications

- Protect your PC and other sensitive electronics against power surges, line noise, brownouts, overvoltages and blackouts
- Operate essential equipment during short-term power outages using battery backup power
- Shut down PCs, DVRs, routers and other equipment without data loss during long-term power outages

Package Includes

- OMNIVSX1000 1kVA 600W Line-Interactive UPS with 8 Outlets
- USB cable
- (2) C13-to-C14 power cables, 1.5 m
- Owner's manual

Easy-to-Read LCD Touchscreen Reports Real-Time UPS and Power StatusThe LCD touchscreen offers five screens of UPS and site power information when the OMNIVSX1000 is operating in either online or battery power mode. It displays vital voltage, load and battery data, as well as critical fault status. An audible alarm will sound in case of low battery, excessive load and fault condition.

HID-Compliant USB Port Allows for Automatic Saves and ShutdownsThis port connects the OMNIVSX1000 to a computer running free downloadable PowerAlert® software to enable safe unattended file saves and system shutdown in case of a prolonged power failure. USB cable is included. The UPS works with Windows, Mac and Linux operating systems.

Tower Form Factor for Easy Placement in Your Workspace or Media CenterThe compact ABS housing fits easily on a desktop, shelf or anywhere else convenient to your workstation or home theater. Connect the C14 power inlet to a properly grounded AC wall outlet with a user-supplied power cord with country-specific plug.

Specifications

OVERVIEW			
UPC Code	037332221766		
UPS Type	Line-Interactive		
INPUT	INPUT		
Input Phase	Single-Phase		
Rated input current (Maximum Load)	4.3		
Nominal Input Voltage(s) Supported	230V AC		
UPS Input Connection Type	C14 inlet		
Input Circuit Breakers	7A fuse		
ОИТРИТ			
Output Capacity (VA)	1000		
Output Capacity (kVA)	1		
Output Capacity (Watts)	600		
Output Capacity (kW)	0.6		
Nominal Voltage Details	230V nominal output in battery mode		
Frequency Compatibility	50 / 60 Hz		
Frequency Compatibility Details	Automatic frequency selection		
Output Voltage Regulation (Battery Mode)	±10%		
Hot-Swap PDU options	PDUBHV10 (2U / 8 C13 outlets)		
Output AC Waveform (AC Mode)	Sine wave		
Output AC Waveform (Battery Mode)	PWM sine wave		
Nominal Output Voltage(s) Supported	220V; 230V; 240V		

Output Receptacles	(8) C13	
Individually Controllable Load Banks	No	
BATTERY		
Battery Type	Valve Regulated Lead Acid (VRLA)	
Runtime Full Load (min.)	0.5 min. (600W)	
Runtime Half Load (min.)	5 min. (300W)	
Expandable Runtime	No	
DC System Voltage (VDC)	12	
Battery Recharge Rate (Included Batteries)	Less than 8 hours from 10% to 90%	
Internal UPS Replacement Battery Cartridge	RBC51	
Battery Replacement Description	See manual for battery replacement information	
VOLTAGE REGULATION		
Voltage Regulation Description	Automatic voltage regulation (AVR) maintains line power operation with a correction range from 170V to 280V	
Overvoltage Correction	Input voltages between 247 and 280 are reduced by 15%	
Undervoltage Correction	Input voltages between 170 and 207 are boosted by 18%	
USER INTERFACE, ALERTS & CONTROLS		
Front Panel LCD Display	Touchscreen LCD indicates input voltage, output voltage, output load percentage and battery charge percentage; Supports additional fault reporting (see manual); Touchscreen LCD remains lighted for 20 seconds in line power mode after any user interaction and remains lighted full time in battery mode	
Switches	Power switch offers whole UPS off/on power control	
Alarm Cancel Operation	Alarm remains silent in battery power mode until low-battery condition occurs	
Audible Alarm	Audible alarm indicates low-battery condition during battery mode operation	
SURGE / NOISE SUPPRESSION		
UPS AC Suppression Joule Rating	312	
UPS AC Suppression Response Time	Instantaneous	
EMI / RFI AC Noise Suppression	Yes	
PHYSICAL		
Primary Form Factor	Tower	
Installation Form Factors Supported with Included Accessories	Tower	
Primary UPS Depth (mm)	345	
Primary UPS Height (mm)	160	
Primary UPS Width (mm)	122
