About This Document

Purpose

The following table lists the product models applicable to this document.

Product Series	Product Model
OceanStor 2000 V3 series	OceanStor 2200 V3, 2600 V3, and 2600 V3 Video Surveillance Edition

Symbol Conventions

The symbols that may be found in this document are defined as follows.

Symbol	Description
 DANGER	Indicates a hazard with a high level of risk which, if not avoided, will result in death or serious injury.
 WARNING	Indicates a hazard with a medium level of risk which, if not avoided, could result in death or serious injury.
 CAUTION	Indicates a hazard with a low level of risk which, if not avoided, could result in minor or moderate injury.
 NOTICE	Indicates a potentially hazardous situation which, if not avoided, could result in equipment damage, data loss, performance deterioration, or unanticipated results. NOTICE is used to address practices not related to personal injury.

Symbol	Description
 NOTE	Supplements the important information in the main text. NOTE is used to address information not related to personal injury, equipment damage, and environment deterioration.

Change History

Version	Date	Description
V1.0	2017/06/01	This issue is the first official release.
V2.0	2017/08/10	Listed applicable products of the spare part.
V3.0	2017/11/30	Optimized the description in the documentation.
V4.0	2018/01/30	Updated the part number (P/N) of the quorum server's spare part.
V5.0	2018/05/09	Added some spare parts of disk components.
V6.0	2018/07/30	Optimized the description in the documentation.
V7.0	2018/12/06	Added the original P/N column, some interface modules, and disks.
V8.0	2019/01/25	Deleted the coin battery that serves as a spare part.
V9.0	2019/03/30	Optimized the description in the documentation.
V10.0	2019/05/15	Added some spare parts of disk components.

Version	Date	Description
V11.0	2020/04/10	Updated some spare parts of disk components.

Contents

About This Document..... ii

1 Obtaining and Using P/Ns..... 1

2 Overall Structure..... 2

2.1 Overall Structure of a Controller Enclosure..... 2

2.2 Overall Structure of a Disk Enclosure..... 4

3 Interface Module..... 7

4 Disk Components..... 11

5 Controller Enclosure..... 22

6 Disk Enclosure..... 25

7 Auxiliary Parts..... 28

1 Obtaining and Using P/Ns

The P/N of a hardware device consists of the third to tenth characters of the code that starts with 21 on the device label.

For example, if the code on the label of a hardware device is 210235G75BZ0D3000027, the P/N is 0235G75B.

The relationship between the original P/N and spare part P/N is as follows: The original P/N refers to the code used during material delivery. If the materials fail and need to be replaced, apply for new ones by using the spare part P/Ns.

2 Overall Structure

- 2.1 Overall Structure of a Controller Enclosure
- 2.2 Overall Structure of a Disk Enclosure

2.1 Overall Structure of a Controller Enclosure

 NOTE

[Table 2-1](#) compares each model in the OceanStor V3 series.

Table 2-1 Model comparison

5	Disk module	-	-

3 Interface Module

NOTE

When replacing interface modules with spare parts whose number is 03058573, the engineers attach the labels that match the speed of the modules onsite.
