

P1044-10L

Unmetered Vertical Power Distribution Unit 120V 20A, 24 Receptacle, L5-20P Plug Type

Servers, storage and networking equipment can only perform as well as the power that drives it. Provide robust, reliable power to rack and cabinet applications with Leviton Power Distribution Units (PDUs). Leviton's P1000 Series Rack Power Distribution Units are the ideal solution for data centers, computer rooms, and other high-demand environments that require "always on" power. P1000 Series PDUs are available for both Vertical and Horizontal applications.

Technical Information

Product Features

Amperage : 20 A

Configuration : Zero-U

Plug Type : L5-20P

Product Type : Basic PDU

Series : P1000 Series

Voltage : 120 VAC

UPC Code : 078477308929

Country Of Origin : Mexico

Features and Benefits

- 18-gauge cold-rolled steel enclosures
- Overload protection with easy-to-reset circuit breakers
- Dual-pole breakers on 208V models for added safety
- 30A units feature UL489 rated circuit breakers
- LED indicators for "Power On" and "Polarity/Ground OK"
- Grounding connection point on all models
- Available for Zero-U and rack-mount applications
