Nexans iOption PoE+ 6/8P-30W

Nexans Ref.: 88301604

- PoE/PoE+ option for Nexans iGigaSwitch family
- 8x PoE/PoE+ ports according to IEEE 802.3at (PoE+) with up to 30 Watts per ports
- 240Watts total power budget

DESCRIPTION

PoE/PoE+ option for Nexans iGigaSwitch family. Up to 8x connected devices can be supplied with Power over Ethernet with this option.

In accordance with the latest IEEE 802.3at (PoE+) standard, up to 30 Watts of power are available for each connected device, with total budget of 240Watts.

There are three PoE/PoE+ options available for iGigaSwitch family depending on the switch model - for 4x, 8x or 12x ports (88301602, 88301604 or 88301606 respectively). Total number of RJ45 ports of Nexans Industrial Ethernet switch should be considered when choosing the right PoE/PoE+ option.
