Product Overview

Technical Specifications

Ratings & Reviews

Configurable Power Distribution Features & Benefits

Availability

Wide Range of Applications

Configure-to-order process allows APC to configure, install, and test complete system before shipping

Serviceability

Front-access servicing

Simplifies installation and UPS maintenance while minimizing space requirements.

Marketing Features

Wide Range of Applications

Configure-to-order process allows APC to configure, install, and test complete system before shipping

Local and web-based monitoring

Status available to customers both in the data center and remotely

Alarm Thresholds

Current Transformers on each circuit that can provide amp ratings on each circuit position to prevent circuit breaker overloads

Remote Management Capabilities

Full-featured network management interfaces that provide standards-based management via Web, SNMP, and Telnet. Allows users to access, configure, and manage units from remote locations to save valuable time. Associated with this feature is the ability to quickly and easily upgrade the firmware via network download to installed units for future product enhancements.

Total Cost of Ownership

Reduced footprint

Minimizes your real estate expenses using the aesthetic APC™ NetShelter™ IT enclosure form factor

Circuit Breaker Panel

Provides breaker positions for distribution to racks and power zones

System mobility

Power distribution units can easily be relocated to accommodate a changing data center environment.
