Product Overview

Ratings & Reviews

EPS 8000 Features & Benefits

Manageability

Intuitive monitoring Step by step navigation and menu screens for critical system information and data. Information is easy to access and presented in a very intuitive way.

Availability

High availability architecture Different running modes : hot stand-by, integrated parallel, or centralized static switch for multi-modules leading to availability architectures

Compatibility

Output synchronization to external source UPS systems can be synchronized with any other independent source for use with downstream static transfer switches.

Parallel capability Multiple units can be placed in parallel to meet power capacity and redundancy requirements
