Product Overview	Ratings & Reviews
EPS 8000 Features & Benefits	
Availability	
High availability architecture	Different running modes : hot stand-by, integrated parallel, or centralized static switch for multi-modules leading to availability architectures
Manageability	
Intuitive monitoring	Step by step navigation and menu screens for critical system information and data. Information is easy to access and presented in a very intuitive way.
Compatibility	
Output synchronization to external source	UPS systems can be synchronized with any other independent source for use with downstream static transfer switches.
Parallel capability	Multiple units can be placed in parallel to meet power capacity and redundancy requirements
