# Retention Solutions

Prevent your devices' cables from accidentally unplugging. Even when inserted correctly into the cabinet power distribution unit (CDU), device power cables can become dislodged due to user error or vibration over time. Server Technology offers multiple solutions that data center managers can deploy to firmly secure power cables to the outlets on a CDU to provide peace of mind.

EZip

This Server Technology product is equipped with High Retention outlets. Due to the significantly improved native holding force of the outlets, we are no longer including secondary retention devices with the product as we have in the past In addition, we have developed a new secondary retention system, Easy Zip, replacing previous Server Technology Cable Retention Clips.

The Easy Zip system is sold in bundles of 10. Orders may be placed through your Sales Representative.

Receptacle	Plug	Description	Part Number
C13	C14	(10) EZip for IEC 60320 C13 outlets	KIT-0013
C19	C20	(10) EZip for IEC 60320 C19 outlets	KIT-0019

HDOT C19	C20	(10) EZip for IEC 60320 C19 HDOT outlets	KIT-HD19

C⬡rd
Sleeve

Prevent your devices' cables from accidentally unplugging. Even when inserted correctly into the cabinet power distribution unit, device power cables can become dislodged due to user error or vibration over time. This thin plastic sleeve provides a more snug fit of the plug when inserted into the outlet.

Universal – works with any straight C14 or C20 plug.
Removable – fins on the side allows sleeve to be removed from the outlet.

Receptacle	Plug	Description	Part Number
C13	C14	(4) Nylon Cord Sleeve for C14 plugs	KIT-0070
C19	C20	(4) Nylon Cord Sleeve for C20 plugs	KIT-0071

Cable Retention Clip

This formed wire retention clip attaches to the sides of the PDU and provides a reliable cable retention solution.

Clips available for C13 and C19 outlets
Designed to work with molded, straight plugs sold by Server Technology
