

Wide-input, Thin-type, Multi-output

TDK Switching Power Supply

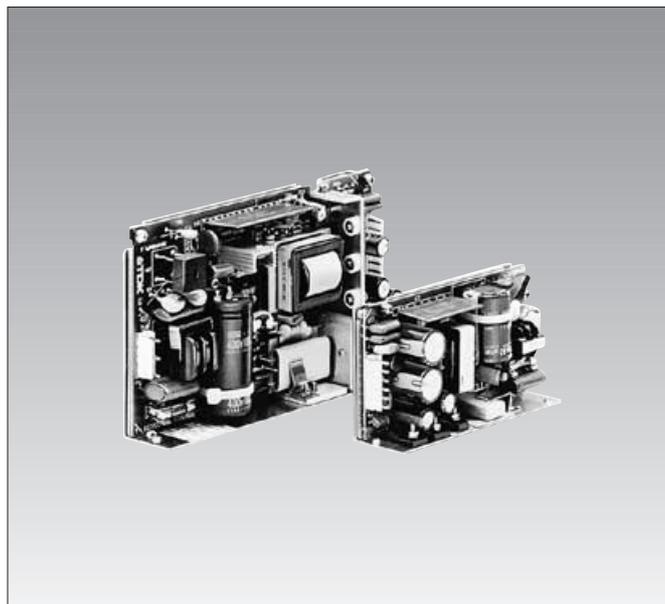

# F SERIES FMW

## [FEATURES]

- Wide input voltage (AC.100V/200V switching not required) thin-type 3-output power supply.
- Compact open-frame device built-in type.
- Low price.
- Low-noise (FCC class B compliant).

## [SUMMARY]

The F series FMW products are thin-type multi-output power supplies available for 100V and 200V systems without any switching operation for AC.85 to 264V input voltages. These power supplies have high performance with the noise terminal voltage FCC class B compliant as a result of pursuing easiness of use, in spite of low prices.
