### MODEL NUMBER: PS4B18USBW

4-outlet power strip with USB-A ports distributes electricity to home and office electronics and charges your mobile devices.

#### Features

**35.6 cm Power Strip Delivers Electricity to 4 Devices at the Same Time**Compatible with standard electrical equipment, this Protect It!® power strip features four BS1363A outlets and a durable white plastic housing. It is ideal for powering almost anything with a compatible plug, including computers and mobile devices to appliances and power tools.

**Charges 2 Mobile Devices with 2.1A of Shared Power**In addition to AC outlets, this power strip provides USB charging for up to two mobile devices, including smartphones, tablets and e-readers. The USB-A ports eliminate the need for AC adapters for charging cords, leaving outlets available for AC equipment.

**Designed to Give You Flexibility in Placing the Power Strip Where It's Most Needed**The power strip features a space-saving right-angle BS1363A plug that helps you connect to a wall outlet located behind furniture that is placed flush against the wall. The plug is attached to a 1.8-meter power cord, which gives you more choices in placing the power strip away from the connected AC outlet.

Vertical or Horizontal Mounting for Desks and WorkbenchesKeyhole-shaped mounting slots on the back of the power strip allow you to permanently install it on any flat surface, including walls, with user-supplied hardware.

**Premium Safety Features Designed for Protecting Your Valuable Equipment**The PS4B18USBW features an on/off switch with diagnostic LED that provides one-touch control over all connected devices. A built-in 13-amp circuit breaker immediately shuts down the entire power strip in case of an overload to prevent equipment damage.
