

SOLARLIFETM S Line

SOLARLIFETM S Line – XUNZEL

High-efficiency Solar LED Lighting System.

Product characteristics

Build your own solar power lighting system

- Light anywhere. No wiring needed
- Versatile & Adaptable. All inclusive
- Indoor and outdoor
- USB output for charging electronic devices
- Easy to install. Easy to remove. Plug & Play
- Easy to expand
- Ultra-safe (low voltage 12V DC) and efficient (LEDs)
- Renewable, clean and free energy for lighting
- Maintenance-free and highly durable components
- Ideal for Off-Grid, Off-Shore and Back-up, eg cottages, homes, gardens, boats, motorhomes, remote applications,...

Complete. High quality components. SOLARLIFETM S-Line Series includes:

- **Photovoltaic solar panel (PV):** fits perfectly with all 12V DC components with optimum performance and efficiency
- **Solar charge and discharge controller:** controls and protects the battery
- **Deep cycle solar battery:** maintenance-free. Long life
- **DC LED lamps ultra-safe kit for outdoor use:** no need for inverter, connect directly to charge controller
- **Universal battery box:** easily protects and stores all components. Advanced and innovative design. It is practically a charging station
- **Solar cables and connectors:** ready to use. No need for special tools. All components fit together, are easy to install and ready to use.
